Moth classes with Prof. Ross and what's better (for me any-ag) is that he makes interest which to the amakes us want to the team even more about numbers...

Thank.

Instructor Professor Coss
Course and Section no. Math 205 scc. 9
Please comment below on special strengths and weaknesses of the instructor and the instructor's conduct of the course. Constructive criticism is solicited. Here good examples which are every to understand Explains everything in good detail and makes it easier to understand.
Assigns certain- problems from the math book which pertain to the quitzes and mid-lems.
Goes over problems we may have had on the homowork or tests, which helps alot.

^{*}Completed questionnaires will be given to your instructor <u>after</u> final grades for the course have been assigned. You are not expected to sign this form.

Instructor Ross			 	
Course and Section no	Math	205 - 9	·	

Please comment below on special strengths and weaknesses of the instructor and the instructor's conduct of the course. Constructive criticism is solicited.

Prof. Ross is very enthusiastic in his teachings, and the enthusiam is catching. However, I have not liked math since Alg II, so my grades are not the greatest.

He is also very theoretical in his teachings, but I am not a theoretical person. I personally would have liked more of a practical aspect of the problems (i.e. how something applies to a problem) However, I do realize that fundamentals are important.

Overall, it is an excellent course I would highly recommend (along with the professor, of course!)

^{*}Completed questionnaires will be given to your instructor <u>after</u> final grades for the course have been assigned. You are not expected to sign this form.

Please comment below on special strengths and weaknesses of the instructor and the instructor's conduct of the course. Constructive criticism is solicited.
I think koss is a good instruction.
He always prepares the class very well.
He taught us some different was from
the book. Also he tries to answer every
questin pratiently.

^{*}Completed questionnaires will be given to your instructor <u>after</u> final grades for the course have been assigned. You are not expected to sign this form.

have explained.

Course and Section no. NOTE 209 - 1	
Please comment below on special strengths and weaknesses of the instructor's conduct of the course. Constructive criticism is solicited.	•
I'm not sure how to put this but I'll give	it a whot -
There are some people/teahers I know who know t	the material/comsc
backwards & firmards, mide & out themselves, but	+ when it comes
time to teach/show/explain it to someone dise	. they just do it

with their train of thought in mind, not the students. Usually this is okany & the students adapt. But there are some Students who need a toteacher who can emphathize with what they are going through & who can teach them with the student's train of thought in mind. This shouldn't take much additional time as my other teachers

Just something to keep in mind.

^{*}Completed questionnaires will be given to your instructor after final grades for the course have been assigned. You are not expected to sign this form.

Student Evaluation of Teaching*

Course and Section no. Null 1709 3000
Please comment below on special strengths and weaknesses of the instructor and the instructor's conduct of the course. Constructive criticism is solicited.
Through the years, math has become more of more complicated
a boring of guest my evaluation wouldn't be as valid because
I really hate math of this class in general / yours the
teaching was okan it of understood Sometymes 1
llatted more from the back then I did from the

Theter B Class D

Cochurs !

Instructor_ROSS

you should try to update fine students on their over all grade once of in a while.

^{*}Completed questionnaires will be given to your instructor <u>after</u> final grades for the course have been assigned. You are not expected to sign this form.
