Grades very fairly, explains pretty well, have no complaints; really friendly.

Like the way he gives many quizzes, students learn from that & we get a chance to bring up our grades.

He makes the concepts clear, when he is explaining something I understand what he is talking about. He answers any questions asked of him. I can't say there are any weaknesses.

STRENGTHS:

- VERY COMPLETE/THOROUGH EVALUATIONS OF PROOFS & THEOREMS
- COMPLETES PROBLEMS USING VARIOUS METHODS
- GOOD HUMOR!!!

WEAKNESSES:

- SOMETIMES SOLVES PROBLEMS IN QUITE COMPLICATED WAY --
CAN TEND TO LOSE THE CLASS WHEN GETS CONFUSED
(I.E. CONFUSES CLASS)

This professor is very knowledgeable about the topic and teaches the subject very well. He sometimes goes to far and loses focus on what's being taught but basically he is a good instructor. He keeps the class interesting and tries the best he can to make this material understandable.

Maybe one thing that should be done is to collect the homework so that students like me would be forced to come to class and turn in the assignments.

The instructor has given lots of good examples to illustrate all the examples of a certain topic.

May be a bit soft at times. Could try to speak louder.

Has a good understanding of all the topics, questions & able to answer every question & explain them well too.

Overall, a good instructor that has taught well.

His writing on the board was sometimes hard to read.

He explained homework & quiz & test answers thoroughly. His jokes were OK but he is not a stand up comedian. He seemed VERY willing to help people outside of class time.

Very Fair Grader.

Good teacher.

But sometimes when I look back at my notes,
a lot of times I don't understand how it is relevant
to the problem. I can't tell you how to improve but
maybe. I don't know what to say.

Maybe I ~~can't~~ take lousy notes.

The instructor shows a genuine enthusiasm for teaching \neq Calculus.
He didn't hesitate to continuously help us when we needed it.
He was very thorough in his lectures and during his question \neq
answer sessions.

I would have liked to have more help on the proof of theorems and
etc.. which was difficult in this class..

Has very good knowledge of the subject.

Very friendly.

Grade assignments reasonably on time.

Answer questions in class.

Testing students knowledge by giving quizzes.

However lecture is pretty fast and because he doesn't collect homework some students tend to take advantage of it & not try the problems. So, can motivate students by collecting the homework.
