Strengths: Quizzes & tests are based on homework
very helpful. Follows through on homework
problems even related to the course.
Weaknesses: Instructor should communicate more with
students. There are some homework
problems that are not clear.

The instructor has exhibited exceptional knowledge of the subject matter. He also has conveyed the material well through the lectures.

The material was covered a bit quickly, but thoroughly.

Overall a good class + prof. sometimes however, he goes through explanations too fast, but takes time to answer questions.

One of the best instructors I have had. He has a very strong knowledge of all the material. Grading is fair and organization of the course is excellent. Only improvement would be to make the exams a little shorter since we only have a limited amount of time to do them.

Dr. Ross is an excellent math instructor. His quizzes are fair and reasonable. He seems to care about his students and the way the class is instructed.

DR. ROSS IS PASSIONATE ABOUT MATH. THIS IS GREAT FOR THE CLASS. I ONLY WISH HE WAS TEACHING CALC IV.

I thought that Mr. Ross was an excellent teacher this semester. He was always prepared for every class and he knew exactly what he was going to do. He was very knowledgeable of his material and he was great at discussing homework problems. His quizzes and tests were ~~fairly~~ fair and they tested what we learned in class. He graded fair and provided a curve when one was necessary. Overall he was a great teacher. I think he deserves a raise.

TEACHER KNOWS ALL OF HIS STUFF. SOMETIMES, HE GOES TO FAST TO THE POINT WHERE THE WHOLE CLASS IS LOST. CLASS STARTED OUT WELL BALANCED INFORMATION WISE. TOWARDS THE END IT SEEMED LIKE HE HAD TO HURRY UP AND TEACH US THE MATERIAL TESTS WERE UNFINISHABLE AND TOOK MORE TIME THAN WAS ALLOCATED. A LOT OF INFO WAS POSTED ON WEB PAGE WHICH MADE IT DIFFICULT TO CHECK IF NO COMPUTER WAS AVAILABLE

Dr. Ross does a pretty good job of introducing new material to the class. He was the first instructor that actually showed example problems before assigning homework, and the first that took some time in lecture to answer questions about our homework, while I've taken Calculus here at UH-Manoa. Although the exams have been much harder than the degree of difficulty in our homework problems assigned, ~~Dr.~~ Dr. Ross has been the best Calculus instructor that I've had at UH-Manoa. Perhaps some of the other instructors (especially Professor Ortel and Professor Siu) should learn how to teach Calculus from Dr. Ross.

The strengths of Prof. Ross was that he was able to relate the math to me. He was open to questions (ie. via email) and he showed a lot of examples during class hour. He controlled the class very well and good structure.

Ross is very enthusiastic with his teaching and grabs your attention. He breaks down complex problems very efficiently, however there are still some points he should emphasize before tests/quizzes in order to counteract such actions of curving. Great Professor, I enjoyed the learning experience.

Strengths: Very flexible w/ class time. Always available outside of class via office hours or e-mail. Fair with grading. ~~and~~
Bookwork and lectures are well explained so students of all levels are able to understand. Quizzes reflected homework, very fair!

Weaknesses: It may have been just me, but some lectures were very "speedy." It was hard at times to keep up with the instructor

Professor Ross's class is much better than a few of the other classes I have taken in this department. He obviously knows the material very well, and does a good job of getting most of the main points across. The only criticism I have (I hope it is constructive, I do think he is a great teacher), is to take a breath sometimes. Occasionally when doing an example, or lecturing he will get going so fast that he loses everyone. You barely have time to keep up with the notes, let alone think about what you are writing.

All in all he is a very good teacher, just occasionally gets rolling so fast it's hard to follow. Oh yeah one other small peck, when you do get going fast like this you tend to stand in front of what you are writing and as a result we are forced to take notes slower, which makes it very hard to follow along.

Assigns homework which helps & gives weekly quizzes.
