MATH 243 SYLLABUS

A. Textbook The textbook is *Calculus Early Vectors* by James Stewart, Chapters 11 and 12.

B. Grading Grading will depend upon

- 25% daily evaluation: attendance, quizzes, and/or homework.
- 25% a first mid-term examination after Chapter 11 or near the end of Chapter 11
- 25% a second mid-term examination on much of Chapter 12
- 25% a final examination covering all material, Friday May 13 from 12:00 — 2:00 p.m.

When converting scores into letter grades, 90% will guarantee an A, 80% a B, 70% a C, and 60% a D. This curve might be relaxed, but will not be made more difficult.

C. Office Hours Email communication is welcome, and appointments are possible at many different times. If you just want to visit without an appointment, you can plan on my being in the office 10:30-11:20 on Mondays, Wednesdays and Fridays (PSB 410). Contact information:

- Phone: 956-4666. Cell: 387-4481.
- Email: ramseymath.hawaii.edu or RamseyL001hawaii.rr.com
- If you somehow lose this information, I’m listed in the Honolulu telephone book.

D. Deadline for Withdrawal Withdrawals will be signed until March 11. No reason has to be given. After March 11, only Deans can permit withdrawals (and they are strict about it).

E. Making Up Work There are no makeup examinations or quizzes. If someone misses one of the first two examinations, the final will simply be worth 50% instead of 25%. If someone misses the first two examinations, the final will be worth 75%.
